

Men's Vest Card

By Amy Celona, www.ustamp4fun.com

Set(s): Wanted

Accessories:

8 1/2 x 5 1/2 Close to Cocoa cardstock
4 x 4 inch To the Nines DSP brown paisley
2 1/2 x 2 1/2 inch To the Nines DSP brown paisley
3 x 1 inch To the Nines DSP green w/brown dots
Mini silver brads
Close to Cocoa ink, sponge daubers
Vanilla taffeta ribbon, 3/4 inch square punch
1 1/16th inch hole punch, 3/4 inch hole punch, Dimentionals™

1. Holding the Cocoa cardstock 'landscape', fold the right and left edge into the center to form a 3 panel card.
2. Take the cardboard template and trace the 'vest panel' on each front flap, and then cut through to the back to make the card appear to be a sleeveless vest
3. Take the 4x4 piece of brown paisley cardstock and adhere it to the inside of the card. Close the card and cut off the designer paper where the sleeve notch is.
4. Take the collar cardboard template and cut TWO MIRROR IMAGE sides of the front collar IMPORTANT: remember to flip the collar template over so that you have matching 'mirror image' collar pieces. Adhere these collars on the middle top with Dimentionals™ and monoadhesive and then cut out the 'V' of the neck. DO NOT set the silver eyelets in.
5. Take the tie template and cut out the tie and adhere with the green dotted side up, tucking it under the collar. Take the 3/4 inch circle punch and adhere it at the top of the tie (like where the tie knot would be).
6. With everything properly in place inside, take the 1 1/16th inch hole punch and set the mini silver brads.
7. Lay the card open flat (inside down) and stamp the paisley on the two vest flaps. Gently sponge the vest side edges.
8. Punch a 3/4 inch square and cut the bottom two corners to form the pocket. Sponge the edges. Cut a 1/2 inch piece of vanilla taffeta ribbon and adhere to the back side of the 'pocket' securely and then adhere the pocket to the vest front.
9. Use the pencil to mark 3-4 evenly spaced holes on the left vest panel edge and set mini silver brads.
