## ----Sizzix----

Framelits Labels Collection #125598  
Adorning Accents Folders #125601, Adorning Accents Edgelits #125595  
Sizzix Big Shot, Multi-purpose platform, standard Cutting pads (#113439)

Cut the 11 x 8.5 cardstock to 11x7

Score along the 7 inch edge at 5 1/2 inches

Cut the 11 inch side in half—  
You will have two 5 1/2 x 7 inch pieces

Trim a slight diagonal edge (about 1/8<sup>th</sup> inch)  
Use the cutter ruler to cut the slight flare

Repeat on the other side

Score the 3 x 8 1/2 piece at 1 1/4, 1 3/4, 6 3/4, 7 1/4

This is what you will have

Stack the two matching sides and cut the non-scored top with the decorative Edgelit

Run the two pieces again with the Adorning Accents folder about 1 inch from the top

Final result

Take the quarter sheet of Naturals Vanilla paper and cut the frame

Finished frame

Ink the block with Crumb Cake

Stamp the block image in the middle

Ink the fish and the plant in Soft Suede and stamp as shown

Ink the words in Suede and then using a damp tissue to make a ragged edge

Stamp the words twice from the one inking

Roll out the cotton gauze

Cut into 4 long strips as shown

Run mono adhesive around the edge of the back and place the gauze peeking out

Pull some gauze strings to make it ragged

Adhere the piece with Dimensionals™

Stamp the conch and seahorses and cut out

Add dimension to the conch with a bone folder

Add the shell & seahorse with Dimensionals™

Adhere the two scored ends one onto the other

The two scored ends together make the bottom

Adhere the button on the 3d images

Make a bow from the hemp and add to the button with Glue Dot

Put the two top edges together and punch a 1/16<sup>th</sup> inch hole

Make a hole on the top edge of each

Take the length of natural ribbon and fold back the last half inch and punch a hole

Put a brad in the hole

Like so...

Thread the brad through the hole on the Top box edge on the right and left front

Cut a 2" piece of hemp and tie a knot to hold the loose end to the handle

Looks like this

Adhere the natural ribbon to the back the same way

Tie each end with hemp as shown
